The BuildEase Method™ Roadmap

Restoration Without the Runaround. Just Results.

The BuildEase Method™ Roadmap

Restoration Without the Runaround. Just Results.

The **BuildEase Method™** isn't just another checklist—it's the industry's cleanest, fastest, and most accountable six-step restoration process. We built it from the ground up to fix what's broken in the business: ghosting, vague estimates, poor communication, and rushed subpar work.

When everything feels out of control, this system brings it back.

STEP 1: Rapid Response

Our Team Is On-Call 24/7—Always Ready.

Properties addressed within the first few hours have a 68% better recovery outcome.

Disasters don't wait—and neither do we. Our team is on standby 24/7, ready to mobilize when you call, because immediate action isn't just fast—it's smart. No delays, no excuses—just swift, strategic action when it matters most.

STEP 2: Transparent Scope

Itemized Digital Estimate + Insurance Alignment

100% of jobs begin with a complete digital assessment, scope, and carrier-aligned estimate.

You'll receive a clear, line-by-line plan reviewed by our estimator, built to align with your insurer's guidelines. There will be no gray areas or surprises.

STEP 3: Real Communication

One Lead. One Line. Daily Touchpoints.

One dedicated project manager. Daily updates. Your preferred method is phone, text, or online portal.

There are no runarounds or ghosting. With real-time job tracking and one consistent point of contact, you stay in the loop.

STEP 4: Precision Work

Certified Teams. Proven Tools. No Shortcuts.

Licensed Mold Assessors, Remediators, and General Contractors

Our team brings the credentials and the craftsmanship. We use the industry's most advanced tools to get it right the first time. We don't just fix for looks—we repair for lasting resilience.

STEP 5: 12-Point Quality Check

We Inspect Before You Do.

Each project goes through a 12-point internal inspection checklist before the client walkthrough.

This isn't a box-checking exercise. It's a **BuildEase Method™** guarantee. We catch what others miss—because we'd rather correct it before you ever see it.

STEP 6: Final Walkthrough & Closure

Completion Review + Client Sign-Off + 30-Day Touchpoint

You walk it, you approve it, and we follow up 30 days later to ensure lasting satisfaction.

You don't sign until every question is answered and every detail meets your standards. We check back after the job to ensure it's still right.

Why Clients Choose Our BuildEase Method™

Because when your property—and your peace of mind—is on the line, method matters.

- **92% of jobs start on the same day**
- **100% of projects have a dedicated lead contact**
- **100% client satisfaction over the past 12 months**
- **100% in-house crews—no subcontractor roulette***
- **Daily job tracking, photo documentation, and reporting**
- **Insurance-compliant reports built for adjuster efficiency**

Real Clients. Real Results. Real Relief.

The **BuildEase Method™** doesn't just get the job done.

It Gets You Back to Your Life—Faster, Safer, and Stronger.

Property Mitigation & Regeneration Roadmap

From Chaos to Control—Fast, Safe, and Stress-Free

FloridaMitigationGroup.com

Property Mitigation & Regeneration Roadmap

From Chaos to Control—Fast, Safe, and Stress-Free

This roadmap is your lifeline when disaster hits. Whether you're facing water damage, fire aftermath, mold, or storm destruction, **BuildEase** takes precision and care to stabilize, restore, and regenerate your property. This is not just clean-up—it's the beginning of rebuilding trust, safety, and peace of mind.

Step-by-Step Property Mitigation & Regeneration Journey

Step 1: Discovery Call – We Listen, You Breathe

Book your free consultation. We assess the urgency, scope, and support you need—fast.

Step 2: On-Site Emergency Assessment

A certified BuildEase Project Companion arrives to inspect, photograph, and document all damages (if through the insurance process) and repair planning.

Step 3: Mitigation Execution Plan + Timeline

We craft a detailed scope of work, timeline, and cost estimate tailored to your situation. You get clarity—not surprises.

Step 4: Immediate Mitigation Work Begins

We deploy experts to extract water, remove mold, board up damage, tarp roofs, dehumidify spaces, and begin remediation— We respond with urgency whenever and wherever needed.

Step 5: Regeneration & Restoration

Once the threat is neutralized, we restore—rebuilding damaged areas and replacing drywall, flooring, cabinetry, and more.

Step 6: Final Walkthrough + Care Kit

You inspect, we resolve, and you receive a Post-project Care Kit, warranty details, and a direct line if anything arises later.

Average Timeline*

- Emergency Water/Fire Mitigation: 4–8 Days
- Mold Remediation: 4–8 Days
- Large Scale Restoration: 10–30 Days

3 Critical Mistakes After Property Damage (Avoid These!)

- Delay: Waiting even a day can lead to secondary damage and insurance issues.
- Trusting the Wrong People: Unlicensed contractors often cause more damage.
- Not Documenting Everything: Now, use your phone to take photos and videos.

Client Quote

“After the flood, we were frozen with fear. **BuildEase** didn’t just show up—they showed up with a plan. And they executed it perfectly.” – Fort Lauderdale Homeowner

***Disclaimer:** Project completion timelines are based on average conditions and may vary depending on factors beyond our control. These may include permitting delays, insurance approvals, material availability, structural complications, or unforeseen environmental or safety concerns. While we try to stay on schedule, your project’s unique scope and circumstances may require adjustments to the estimated timeline.

Remodeling & Construction Roadmap

From Vision to Reality—Without the Stress

FloridaMitigationGroup.com

Remodeling & Construction Roadmap

From Vision to Reality—Without the Stress

Whether upgrading your kitchen, opening your floor plan, or building new—from bathroom upgrades to complete additions to living spaces—this roadmap outlines how to bring your vision to life with clarity, communication, and craftsmanship. At **BuildEase** by Florida Mitigation Group, we purposely build beauty and structure.

Step-by-Step Remodeling & Construction Journey

Step 1: Discovery Consultation – Dream Bold. We’ll Build It.

Schedule your free consultation to share your needs, goals, aesthetics, and priorities.

Step 2: On-Site Walkthrough & Vision Mapping

We visit the property, take measurements, assess existing structures, and start aligning your vision with what’s structurally sound, achievable, and built to last.

Step 3: Scope of Work, Estimate, and Timeline

You will receive a detailed estimate and project roadmap covering design, demolition, construction phases, material timelines, and more.

Step 4: Pre-Construction Prep

We handle permitting, compliance, HOA approvals, vendor scheduling, and material ordering. Your only task is to choose your preferred finish and quality grade, and then we take care of the rest.

Step 5: Construction in Motion

You’ll have a dedicated BuildEase Companion who will keep you updated at every milestone. We manage every nail, every crew, and every challenge.

Step 6: Final Reveal & Post-Project Satisfaction Walkthrough

Your remodel is complete. You walk through it with us. You approve. You smile. We leave only when it's right.

Estimated Timeline*

- Kitchen/Bath Remodels: 10–20 Days
- Interior Renovations: 15–30 Days
- Room Additions: 30–60 Days
- Large Scale Custom Builds: 60–120+ Days

3 Mistakes People Make When Remodeling (Don't Do This!)

- **Choosing Based on Price Alone:** You'll pay more later for cheap work.
- **Overlooking Permits or Design Plans:** These safeguards protect your investment and ensure everything is done right from the start.
- **Micromanaging Contractors:** You should get updates—not headaches.

Client Quote

"I handed BuildEase the keys and an idea. They gave me back a home that exceeded everything I imagined." – Plantation Remodel Client

What's Next?
